

Hylenex Filler Dissolvant

Pre-Care:

1. **Consultation:** Schedule a consultation with a qualified healthcare provider or cosmetic professional to discuss your concerns and determine if the use of Hylenex Filler Dissolvant is appropriate for your situation.
2. **Medical History:** Provide a comprehensive medical history, including any allergies or previous reactions to injectables, to your healthcare provider.
3. **Avoid Other Treatments:** Refrain from undergoing other facial treatments, especially dermal filler injections, in the days leading up to the Hylenex Filler Dissolvant treatment.
4. **Discuss Expectations:** Discuss your expectations and concerns with the professional administering the treatment to ensure realistic outcomes.

Post-Care:

1. **Follow Provider's Instructions:** Adhere strictly to the post-care instructions provided by your healthcare provider or the professional administering the dissolving treatment.
2. **Avoid Touching or Massaging:** Refrain from touching or massaging the treated area unless instructed otherwise. This can help prevent any potential spread of the dissolving agent.
3. **Stay Hydrated:** Maintain good hydration to support the body's natural healing processes.
4. **Avoid Sun Exposure:** Protect the treated area from excessive sun exposure. Consider using sunscreen with high SPF to prevent hyperpigmentation and support healing.
5. **Avoid Strenuous Exercise:** Minimize strenuous physical activities for a short period following the treatment to reduce the risk of bruising or swelling.
6. **Ice Application (if advised):** If your healthcare provider recommends it, you may use ice packs on the treated area to alleviate any swelling or discomfort.
7. **Follow-up Appointments:** Attend any scheduled follow-up appointments to assess the results and address any concerns.
8. **Potential Repeat Treatments:** Depending on the outcome of the dissolving treatment, additional sessions may be required. Follow the recommendations of your healthcare provider for any necessary follow-up treatments.
